

GUIDING PRINCIPLES

It is the policy of the California Courts to assure that individuals with disabilities have equal and full access to the judicial system. A person is deemed to have a disability if they have a physical or mental impairment that substantially limits one or more life activities, a record of such an impairment, or is regarded as having such an impairment. In keeping with the court's policy of fairness and equal access, the Superior Court of California, County of Sacramento does not discriminate on the basis of disability.

The services described in this brochure reflect our most commonly requested accommodations. However, we recognize that those using our facilities may require other forms of assistance. In the event you need other assistance, please feel free to contact the Court. The Court always welcomes those who may wish to discuss their needs, share their experiences or make suggestions for improvement.

If you require information in an alternative format, please contact the ADA Coordinator.
